About KidWorks

KidWorks recognizes that education is the great equalizer and that all children deserve the opportunity and support to succeed in their education

regardless of the neighborhood in which they grow up.

For almost 30 years, KidWorks has provided academic support, character and leadership development programs that empower students on their journey from Pre-K through their college years. We support the entire family to ensure student success and the outcome is self-reliant young adults, equipped for life and career, who are making a difference and giving back to their community.

Recovering from the traumatic effects of COVID takes time. Staff have expanded programs with additional tutoring sessions, wellness workshops, and youth nights to help students catch-up and address the lingering effects of the pandemic.

Students perform better when their essential social and emotional needs are met. KidWorks is like a second home for many students. Meaningful, in-person connections foster a sense of well-being so students can confidently pursue their full potential.

You have the opportunity to impact the life of a KidWorks student. Sponsor now so that more students are equipped with the skills they need to pursue their dreams of college success.
